

# "Promotional Stickers" for PrestaShop

## **UPGRADE from FREE to PRO version:**

- Uninstall Free version with checkbox “delete module folder after uninstall”
- Install Pro version.

## **Installation**

Installation doesn't require of extra actions.

- from addons.prestashop :

1. In your store's administration interface, click on the tab to connect to PrestaShop Addons, in the upper right of the page.
2. Enter your login information in the box.
3. Now all of your purchases will appear directly in your list of back office modules!
4. After connecting to Addons from your store's administration interface, click on the "Modules" tab in the menu.
5. Look for the name of the module you want, click "Install", then configure it.

- from zip file :

1. In your store's administration interface click on the "Modules" tab in the menu.
2. Click on the “Upload Module”
3. Locate zip file and click “Open”
4. Then configure it.

## **Back-office. Module configuration (general config)**

Module to configure: Promotional Stickers

Don't forget to select img's types in module settings

horizontal vertical product cover image

font size color shadow Align horizontal (margin left)

- ON/OFF Sticker
- Select sticker image.  
If you want display text only without any sticker image – select “transparent-for-text-only.png”
- Sticker position:  
vertical (top | center | bottom)  
horizontal (left | center | right)
- Text input for sticker (or leave empty if your sticker doesn't need any text)
- Settings for text: font, size, color, shadow, margin left

**\*\* Multistore is supported** except cases when products have the same cover image.
